EXPLORE DARWIN'S FINAL FRONTIER IN LUXURY

Widely considered to be one of the last untouched and most elusive destinations on the planet, the Galapagos Islands are at the top of most avid travelers and nature-lovers bucket lists, and for good reason! An opportunity for a once-in-a-lifetime adventure set 600 miles off of the coast of Ecuador, the archipelago marks the spot where three major ocean currents collide, creating brilliantly crystal blue waters that are home to some of the world's richest marine ecosystems. On dry land, the islands are adorned with volcanic formations and vibrantly colored sand beaches that are teeming with endemic exotic wildlife, including many species that are on the brink of extinction. From marine iguanas that look like they just came from a scene of Jurassic Park, to curious sea lions and iconic attention-grabbing blue-footed boobies, the Galapagos promises access to experiences you cannot have anywhere else on Earth, creating a trip that you will not be able to ever forget. What better way to explore the Enchanted Islands than aboard one of only three impeccable Relais & Chateaux-ranked ships to operate in the destination?

Intimate and exclusive for just 20 guests, the identical luxury expedition yachts, *Origin*, *Theory* and *Evolve* by Ecoventura are named after Charles Darwin's Theory of Evolution and Origin of Species. Managed like floating boutique hotels, the three ships concluded their full upgrade just last year with the debut of *Evolve*, the newest of the three vessels, which continue to stand out as the most curated and luxurious way to travel through the Galapagos. Ecoventura cruises offer seven-night/eight-day itineraries that are as transformative as they are chic, highlighting daily excursions and educational briefings led by two certified naturalists—offering the most favorable passenger-to-naturalist ratio in the destination. Daily activities include stunning

snorkeling opportunities, kayaking adventures, beach treks, and hiking tours that bring you up close and personal with the islands' most fascinating species. After all, wildlife wanders freely and fearlessly throughout the archipelago, so the ships' discerning guests frequently find themselves swimming with sea turtles and sun-basking with Galapagos giant tortoises.

Offering a cutting-edge fleet of luxury expedition yachts, each Ecoventura vessel is composed of 10 premium cabins designed to foster a sense of connectivity with its surrounding picturesque scenery through guaranteed panoramic views from every corner of the ship. Onboard, it offers top-of-the-line amenities that can indulge every comfort or request, from a full-time concierge to a state-of-the-art fitness center, a sundeck with loungers and daybeds, a jacuzzi, and innovative sustainably sourced cuisine inspired by the local produce that it incorporates into every meal of the day.

Origin, *Theory*, and *Evolve's* rates start at \$9,950 per person based on double occupancy and include all meals, beverages, snacks, Captain's welcome, farewell social gatherings, an open-bar policy, including wine and spirits, guided shore excursions, snorkel equipment, glass bottom boat rides, multiple stand-up paddleboards and sea kayaks, satellite WiFi, as well as transfers in the islands between the airport and dock. For an even more exclusive and intimate experience, the mega-yachts are also available for private charters starting at \$199,000 per week for up to 20 guests.
